CATHOLIC VOTE LARGELY SECURE FOR ROOSEVELT

Due to Administration's Course Toward Friars in Philippines.

HAS BEEN FAIR TO FAITH

Democratic National Committee Will Work to Arrest Movement.

Will the Catholic vote be cast for

This question is worrying the Democratic management. In public the leaders make light of the idea, but in the privacy of committee rooms and party gatherings the subject is given careful, calm, and deliberate consider-

There are about 30,000,000 Catholics in the United States. It is estimated that at least between 3,000,000 and 4,000,000

The managers of the Democratic Na-tional Committee are in the air on the question. They would like to know the facts: Rumor has come to them that the Catholic vote will be for Roosevel and Fairbanks. The why and the where fore are not explained.

Everybody Sees Situation.

is admitted by Republicans and

It is admitted by Republicans and Democrats alike that the Catholic vote is normally Democratic. Why should it at this time be cast in favor of the Republican nominee?

The Democratic managers have seen the trend of events, and are making strenuous efforts to turn the tide in favor of Parker and Davis.

Can they do it?

The question is up to the Democratic National Committee, and will be thoroughly discussed. They will try to devise some means to offset the popularity in which Roosevelt is held by the Catholic voters, but whether or not this can be done is a problem too hard to be solved at this time.

The Real Explanation.

to be due to a very simple act on the part of President Roosevelt.

He stood by the Catholic Church in the Philippines

Rell are not yet known and the man who was riddled with bullets on the bridge near Statesboro has not been identified.

Driving Nagrous Cut

It is argued by the Catholic clergy that President Roosevelt could have done the church an immeasurable unt of harm in the Philippines, had he wished to have done so, but instead of driving the frairs out of the archipel-ago, and substituting irresponsible and inexperienced teachers, he allowed the Catholic institutions to remain intact, and rendered them all the aid and as-sistance it was possible to give.

A Priest's Comment.

President Roosevelt treated us fairly priest last night. "In his efforts to be square and fair he did not overlook our interests. He has treated us better than most Administrations, that account. He had the opportunity of doing the Church a great deal of harm, but instead of doing so he came to the front in our behalf. "The result is shown in the class of

educational institutions now in the Philippines. The Catholic Church has been established in the Philippines for 300 years. If President Roosevelt had

Will Speak as Individuals.

The Catholic clergy is prohibited from mixing in politics. The members will, take no active part in the campaign, either for or against the Presidential candidates. There is nothing in the church rules, however, that prohibits the priest from giving expression to the priest from giving expression to his thoughts and sentiments while speaking as an individual. This, it is said, they will do. They will say that Roosevelt stood by the church in the Philippines, that his Administration has been fair to the Catholic Church, that he has been generous in all matters touching the faith. And it is estimated that when the votes are counted he will

LEXINGTON, Ky., Aug. 18.—The posse proceeded to break up the deputy revenue collector, J. L. McCoy, still with axes, but as soon as the first head of the Licking River Tuesday night in which McCoy received two loads from a shotgun, one inflicting a scalp wound and the other penetrating the back, some of the lead entering the stomach.

The revenue man and his assistants had been searching for the still for the past week and had just discovered it at the head of a deep ravine which could only be approached from one direction, the sides and end being protected by precipitous mountain bluffs. When the posse arrived they found it deserted, although signs of hasty departure were in evidence.

one, and while giving orders to his assistants, the second shot was' fired, which compelled McCoy to retreat. Henry Freeman dashed out of the building and rushed up the hill whence the shots came. He ran upon four men in ambush and began a fusillade upon them with a revolver. The moonshiners beat a retreat into the woods and escaped. Freeman returned to the still and assisted the others in completely demolishing it.

One of the large vats contained 1,000 gallons of beer and another a large quantity of whisky.

McCoy reached Jackson Wednesday, where he was given surgical treatment.

Driving Negroes Cut.

A number of organizations have been formed by the whites throughout the county with the avowed purpose of county with the avowed purpose of whipping all blacks who have talked too much and of driving bad negroes out of the community. This will probably lead to further bloodshed. Rev. Gaines, who is at the head of the church to which Cato and Reed belonged, has disappeared and no one will admit knowing where he is.

The name of neither of the dead negroes has been learned. Two bullets were found in one and eleven buckshot in the other. The dead and wounded were found this morning. The two wounded negroes are Albert Roberts, seventy years old, who was shot in the leg, body, and arm, and his son Raymon, eighteen years old, who was shot in the neck, arm, and twice in the leg. They are said by those who know them to be harmless, industrious negroes. A physician has attended, and has pronounced their wounds not mortal.

mittee to Urge Claim of Machinists.

This statement was made this morn-ng by Comptroller of the Treasury R. I. Tracewell, in answer to the state-nent that he had indicated to officials of the Navy Department what his decision would be. It disposes definitely of rumors that have been in free circula-tion for several days and will serve, perhaps, to still the alarm of the ma-chinists at the Navy Yard, who have been much wrought up by these whis-nerings.

May Deduct Money.

The Government, as The Times has said, has decided to pay the machinists nouncement of the Comptroller's decision, and-in the event the decision proves to be adverse to the machinists contention—to deduct the money thus paid from their wages for the next

month.

At a meeting last night of Columbia Lodge, No. 174, International Association of Machinists, it was decided that each of the men from whose wages deductions were thus made, should receive his check under protest. It was further decided that a committee should wait upon Comptroller Traceweil and request permission for the attorney representing the men to submit a brief.
